

The high productive, ergonomic  
tube filler at affordable cost

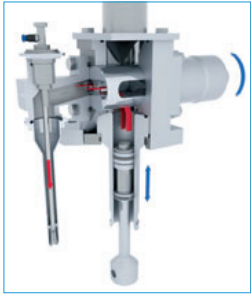

## FP 18-1 FILLING PLATFORM

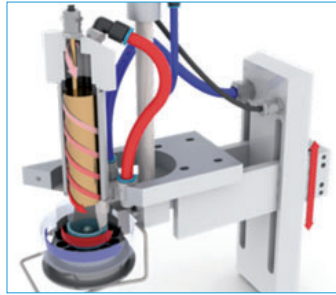

The FP 18-1 is another record taker in tube filling. After the fastest tube filler TFS 80-8 with an output of up to 750 tubes per minute, the FP 18-1 is the fastest single head tube filling machine currently available on the market. Patented innovations throughout the entire system from tube loading through filling and closing.

### Output

- 120 cycles mechanical speed
- $\varnothing$  10–52 mm (40 mm with metal tubes)
- $L_{\text{Tube}} = 60\text{--}250$  mm
- $V_{\text{Volume}} = 1,5\text{--}350$  ml
- Metal-, plastic or laminated tubes

**Filling system with optimized product flow and more effective easy to clean design**

**Sustainable energy savings with new state-of-the-art hot air cooling system**

## The tube filling and closing machine FP 18-1 impresses with its'

- sound mechanical IWK design, proven in the field over decades
- excellent accessibility from all sides
- maximum process reliability by use of servo technology where needed
- flexible positioning of working stations to fit your floor space requirements
- robust, high accurate transport system with motorized height adjustment
